I've always liked Thor as a concept for comic books. It always seemed to me to be a fascinating blend of fantastical elements, interesting culture and characters, and super hero antics. While searching for recommendations, this run by J. M. Straczynski always came up, so I decided to give it a shot. Boy am I glad I did.

Michael Straczynski's update of Thor is even more fun than the first. The idea of Asgard now being in a field in Oklahoma continues to provide plenty of laughs as well as serious questions about what the various inhabitants are supposed to do in a humdrum realm like Earth.
