timing marks - GN and T-Type Performance Enthusiasts ...
You can expect that the marks on the balancer will be "0" for TDC, and "8" for 8 degrees before TDC. You can estimate your 2 1/2 degrees, or you should buy a timing light with a built in advance on it, then you will only require a TDC mark on the engine. You might also revisit your carb and make sure the accelerator pump is actuating properly.

Ignition timing help! | Team Buick
Timing belt gears normally have the TDC mark aligned with the key way. I had once mistakenly moved the outer balance on a Buick 455. The engine when started just did some vibrating. I found a replacement at the junk yard. Worked great. BTW, the key way on the balance was aligned with the timing mark.

Buick Rendezvous / Encore Timing Belt Or Chain | Auto ...
With the dial back feature, you adjust the light to keep the timing mark in sight as it rises. When the timing mark stops moving, you hold the RPM's steady, adjust the dial until the balancer mark lines up with the 0 on the timing tab, and read your total advance off the dial. To do this with a conventional timing light, you need to make a 30° mark on your balancer. The Buick 350, and 455 balancers are 6 3/4" in diameter.
