Translucent (transparent or “ see-through ”) paint allows more light to pass through them, refracting the color. Opaque paints are more reflective (not to be confused with “ shiny ”). They sit on a surface, preventing light from passing through them. The opacity of a paint color is determined by how it interacts with a light source.

Whether a particular color is transparent or opaque has to do simply with its inherent chemical makeup. An opaque color will offer more coverage than a transparent one; that much is obvious. But it is important to remember that opacity and transparency have nothing to do with color saturation/intensity or color permanence.

Must Love Dogs meets My Not So Perfect Life in this hilarious romantic comedy about a dog trainer who ’ s a master at managing her four-legged friends, but when it comes to her love life...let ’ s just say she still has a lot to learn. Cora Bellamy is a woman who thrives on organization. She ’ s successfully run her own dog training business for years, perfectly content with her beloved rescue pitbull as the main man in her life. She ’ s given everything to her business, and her lack of social life (or slobber-free clothes) has been completely worth it. But all that changes when she meets Charlie Gill, the hottest client she ’ s ever had. The only problem? Charlie ’ s taken. Luckily, Cora has a new friend—the sweet, lovably geeky Eli Crawford. More loyal than a retriever, he ’ s always there to help Cora with her problems, including her love life. That ’ s why she ’ s shocked to realize that even as things start heating up with Charlie, there might just be a more-than-friends spark between her and Eli, too. As Cora ’ s life gets more tangled up than a dogwalker ’ s leashes—and as she prepares to audition for a dog-training TV show that may irrevocably change her entire life—she has to figure things out before it all goes straight to the dogs. Charming, witty, and warm-hearted, Life on the Leash inspires you to cheer for every underdog looking for love.

This fifth grade science textbook is designed for use in Utah during the 2014-2015 academic year. This book was developed by the Utah State Office of Education and is aligned to the Utah Science Core. This book is based on

Contents: Science, Curriculum, Curriculum Development, Science in the Curriculum, Need of Science, Objectives of Science, Instructional Objectives of Science, Trends in Elementary School Science, Science Education in Secondary Schools, Designing Science Units of Study, Problem Solving, Practical Solving, Practical Work, Nature Work, Creativity, Community Resources, Microcomputers, Reading, Writing, Effective Communication, Learning Difficulties, Professional Science Teacher, Mentor Teachers, Innovative Evaluation Procedures, Improving Science Curriculum, Role of Educational Philosophies in Improving the Quality of Science Curriculum, Futurism in the Science Curriculum, Project 2000 +, Learning Without Burden.

When two bad ants desert from their colony, they experience a dangerous adventure that convinces them to return to their former safety.

This work comprises a literary comparison of surviving alternative versions of selected narrative-cycles from the "Nights." Pinault draws on the published Arabic editions - especially Bulaq, MacNaghten, and the fourteenth-century Galland text recently edited by Mahdi - as well as unpublished Arabic manuscripts from libraries in France and North Africa. The study demonstrates that significantly different versions have survived of some of the most famous tales from the "Nights." Pinault notes how individual manuscript redactors employed - and sometimes modified - formulaic phrases and traditional narrative topoi in ways consonant with the themes emphasized in particular versions of a tale. He also examines the redactors' modification of earlier sources - Arabic chronicles and Islamic religious treatises, geographers' accounts and medieval legends - for specific narrative goals. Comparison of the narrative structure of diverse story-collection also sheds new light on the relationship of the embedded subordinate-narrative to the overarching frame-tale. All cited passages from the "Nights" and other Arabic story-collections have been fully translated into English.

Provides a combination of facts and story as a butterfly lays a tiny egg on a leaf which soon becomes a pupa and eventually a butterfly emerges
