detective and mystery fiction, exploring various philosophical themes.

The New York Trilogy - Wikipedia

The New York Trilogy is a series of novels by Paul Auster. Originally published sequentially as *City of Glass* (1985), *Ghosts* (1986) and *The Locked Room* (1986), it has since been collected into a single volume.

The New York Trilogy by Paul Auster - Goodreads
New York era un luogo inesauribile, un labirinto di passi senza fine: e per quanto la esplorasse, arrivando a conoscerne a fondo strade e quartieri, la città lo lasciava sempre con la sensazione di essersi perduto.

The New York Trilogy Quotes by Paul Auster

The New York Trilogy by Paul Auster consists of three exciting detective stories: City of Glass, Ghosts, and The Locked Room. Each is a thriller that is brilliantly written and sure to hold the reader's interest. Auster's writing style raises the mystery to a new level, with constant plays on words.

The New York Trilogy Summary & Study Guide

The New York Trilogy is very much the quintessential post-modern work of fiction. It is ambiguous and open-ended. Yet the stories also seem closed and almost claustrophobic, with the plots of the three novels turning in on themselves. The book is multi-layered and invites the reader to approach it from many different angles, but also

The New York Trilogy by Paul Auster

My reasons for moving to New York at the beginning of the 1980s were twofold. One was love. The other was the desire to become a writer. The city was then in a period of stagnation and decay. The ...

White hires Blue, a New York City private detective, to keep an eye on Black, but eventually Blue finds his own life in danger

Walkscapes deals with strolling as an architecture of landscape. Walking as an autonomous form of art, a primary act in the symbolic transformation of the territory, an aesthetic instrument of knowledge and a physical transformation of the 'negotiated' space, which is converted into an urban intervention. From primitive nomadism to Dada and Surrealism, from the Lettrist to the Situationist International, and from Minimalism to Land Art, this book narrates the perception of landscape through a history of the traversed city.

The New York Trilogy is perhaps the most astonishing work by one of America's most consistently astonishing writers. The Trilogy is three cleverly interconnected novels that exploit the elements of standard detective fiction and achieve a new genre that is all the more gripping for its starkness. It is a riveting work of detective fiction worthy of Raymond Chandler, and at the same time a profound and unsettling existentialist enquiry in the tradition of Kafka or Borges. In each story the search for clues

leads to remarkable coincidences in the universe as the simple act of trailing a man ultimately becomes a startling investigation of what it means to be human. The New York Trilogy is the modern novel at its finest: a truly bold and arresting work of fiction with something to transfix and astound every reader.

'Marks a new departure for the American novel.'

Observer 'A shatteringly clever piece of work . . .

Utterly gripping, written with an acid sharpness that leaves an indelible dent in the back of the mind.'

Sunday Telegraph 'The New York Trilogy established him as the only author one could compare to Samuel Beckett.' Guardian

The novels of Paul Auster—finely wrought, self-reflexive, filled with doublings, coincidences, and mysteries—have captured the imagination of readers and the admiration of many critics of contemporary literature. In *Beyond the Red Notebook*, the first book devoted to the works of Auster, Dennis Barone has assembled an international group of scholars who present twelve essays that provide a rich and insightful examination of Auster's writings. The authors explore connections between Auster's poetry and fiction, the philosophical underpinnings of his writing, its relation to detective fiction, and its unique embodiment of the postmodern sublime. Their essays provide the fullest analysis available of Auster's themes of solitude, chance, and paternity found in works such as *The Invention of Solitude*, *City of Glass*, *Ghosts*, *The Locked Room*, *In the Country of Last Things*, *Moon Palace*, *The Music of Chance*, and *Leviathan*. This volume includes contributions from Pascal Bruckner, Marc Chenetier, Norman Finkelstein,

A stunning and provocative new novel by the internationally celebrated author of *The Blind Assassin*, winner of the Booker Prize. Margaret Atwood's new novel is so utterly compelling, so prescient, so relevant, so terrifyingly-all-too-likely-to-be-true, that readers may find their view of the world forever changed after reading it. This is Margaret Atwood at the absolute peak of her powers. For readers of *Oryx and Crake*, nothing will ever look the same again. The narrator of Atwood's riveting novel calls himself Snowman. When the story opens, he is sleeping in a tree, wearing an old bedsheet, mourning the loss of his beloved Oryx and his best friend Crake, and slowly starving to death. He searches for supplies in a wasteland where insects proliferate and pigoons and wolvogs ravage the pleeblands, where ordinary people once lived, and the Compounds that sheltered the extraordinary. As he tries to piece together what has taken place, the narrative shifts to decades earlier. How did everything fall apart so quickly? Why is he left with nothing but his haunting memories? Alone except for the green-eyed Children of Crake, who think of him as a kind of monster, he explores the answers to these questions in the double journey he takes - into his own past, and back to Crake's high-tech bubble-dome, where the Paradise Project unfolded and the world came to grief. With breathtaking command of her shocking material, and with her customary sharp wit and dark humour, Atwood projects us into an outlandish yet wholly believable realm populated by characters who will continue to inhabit our dreams long after the last
