The Routledge Introductions to Applied Linguistics series takes an innovative 'practice to theory' approach, with a 'back-to-front' structure. This leads the reader from real-world problems and issues, through a discussion of intervention and how to engage with these concerns, before finally relating these practical issues to theoretical foundations. Exploring Language Assessment and Testing offers a straightforward and accessible introduction that starts from real-world experiences and uses practical examples to introduce the reader to the academic field of language assessment and testing.

Extensively updated, with additional features such as reader tasks (with extensive commentaries from the author), a glossary of key terms and an annotated further reading section, this second edition provides coverage of recent theoretical and technological developments and explores specific purposes for assessment. Including concrete models and examples to guide readers into the relevant literature, this book also offers practical guidance for educators and researchers on designing, developing and using assessments. Providing an inclusive and impartial survey of both classroom-based assessment by teachers and larger-scale testing, this is an indispensable introduction for postgraduate and advanced undergraduate students studying Language Education, Applied Linguistics and Language Assessment.

An investigative approach to Cambridge IGCSE Geography, written in partnership with the Geographical Association. Encourage students to make links between case studies and their own local contexts as well as exploring the core themes and skills of the 0460 syllabus in the context of global case studies and processes. Prepare for exam success with full coverage of the core themes of Paper 1 (Population and Settlement, The Natural Environment, Economic Development and the Use of Resources) as well as the geographical and fieldwork skills elements of Papers 2, 3 and 4. Help students focus on achieving the best grades with excellent exam support for each Paper, with exam-style questions, answers at different levels and accompanying comments. Be confident in the content and approach - this resource is written by highly experienced Geography teachers, consulted edited by a CIE Principal Examiner, and produced in partnership with the UK Geographical Association - the home of best practice in Geography teaching.

Objective Key offers students complete, official preparation for the Cambridge English: Key (KET) exam. This is a revised and updated edition of Objective KET. Short units offer a variety of lively topics while providing training in exam skills and solid language development. ‘ We ’ ve left a lot of men in Borneo – know what I mean? ’ With their SAS trainer ’ s warnings ringing in their ears, the naturalist, Redmond O ’ Hanlon, and the poet, James Fenton, set out to rediscover the lost rhinoceros of Borneo. They were loaded with enough back-breaking kit to survive two months in a steaming 95 ° (in the shade) jungle of creeping, crawling, biting things. O ’ Hanlon could also rely on his encyclopaedic knowledge of the region ’ s flora and fauna, and had read-up on how to avoid being eaten by anything (stick your thumbs in a crocodile ’ s eyes, if you have time). And yet they proceeded to have an adventure that neither O ’ Hanlon, nor his friend, nor even his guides were remotely prepared for... ‘ Consistently exciting, often funny, and erudite without ever being overwhelming ’ Punch.

Written to cover the IGCSE syllabus, Business Studies: IGCSE is divided into five sections, which are in turn divided into units that provide convenient and flexible areas of learning. Each unit has a brief introduction followed by a business-in-context section and questions designed to help students understand the implications of the topic. Each unit contains definitions of key terms and ends with a summary of the topic covered.
