Boat Engine is Sputtering and Losing Power Your boat feels like it's running out of strength (and you've ruled out the No. 1 breakdown reason || running out of fuel). You most likely have a filter problem or fouled plugs. That could be why your boat motor is losing power.

10 Common Boat Engine Problems, Why Do Boats Break Down ...

One possible contaminant is air. If air enters the injector pipes, the engine will stop because the air will act as a shock absorber, preventing the fuel pressure from rising high or quickly enough to be sprayed into the cylinder. This is a common problem that is easily solved by bleeding the fuel system of air.
