The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects.

The Nigerian condition has been the subject of conversation among writers, policymakers, and market men and women. There is no where the subject is not broached or discussed and often solutions are proffered, from the rational to the mundane. This is to be applauded because a culture of debate is to be preferred to silence as it is a national asset. Indeed, it is the duty of the ruling elite within the state sphere to distil the feedback from the citizenry and turn it into an outcome that is healthy for the polity.

WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable strive towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army-Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the "Turning the Tide" project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012–2013), Gbarpolu County, Liberia

Lessons in School Improvement from Sub-Saharan Africa describes the planning, delivery and evaluation of an improvement programme by EducAid. The evaluation showed that children in schools, whose teachers had taken part in the programme, made more progress in literacy, attendance and behaviour than children in control schools.

The debut novel from Nigerian author Henri Eyo, Shatter the Destroyer is a provocative thriller that is as informative as it is captivating. Judas Toro is a fraudulent business tycoon who enters politics to amass even more wealth at the expense of the Nigerian people. However his ambitions begin to get out of hand when he put his own interests above those of the nation's. Eventually Toro's reckless attitude leads to his activities straying from being merely corrupt to violent. Using his cruiser as a mobile base of operations, the would-be politician carries out a series of criminal atrocities in Nigerian territorial waters. To put a stop to Toro's terrorist activities, the Commissioner of Police dispatches Sanayak Ambo, a point man for the National Intelligence Agency (NIA). Assigned to the Joint Task Force, Ambo is charged with stopping the vicious cycle that's been set in motion by the terrorist Toro. However Ambo quickly realizes that he will need to call on all of his experience and expertise in order to successfully carry out

operation Shatter the Destroyer.

This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.
