~~Used polystyrene | Recycling | How to Waste Less~~

At present, the recycling of polystyrene (or EPS foam) basically follows the following process: Segregation □ EPS foam products are separated from other wastes and then

Get Free Waste Expanded Polystyrene Recycling By

sorted. Compaction □ The segregated EPS foam products are fed to a compactor in order to reduce its volume.

~~Recycling of Polystyrene Wastes |
EcoMENA~~

Polystyrene packaging. Polystyrene is a type of plastic which is not commonly

Get Free Waste Expanded Polystyrene Recycling By

recycled. Most people readily recognise expanded polystyrene which is sometimes used for take-away food containers and to package white goods like microwaves. Expanded polystyrene should be placed in the waste bin. Polystyrene is also sometimes used for other food packaging like multi-pack yoghurts.
