What does Scotch whisky taste like? Scotch whisky exposes the barley grain to peat smoke during the drying process. This process, along with the time spent ageing in the oak barrel, will impart some very distinctive aromas and flavours in the whisky. These flavours include: alcohol; smoke; leather; vanilla; peat; graininess; wood/oak; cedar; malt; fruit; nuts; tobacco

What Whiskey Tastes Like: An Introduction - WhiskeyBon

Full-bodied whiskey can have dozens of dominant flavors! The flavors are imparted to the whiskey during the whiskey making process and although the overall process is the same the world over, slight differences between distilleries will affect the final taste of the product. Which explains why we have so many whiskeys with so many different ...
