Because if you want to get anywhere in life, having the ability to get along with people, have them understand you and appreciate you all begins with discovering why you think and act the way you do – and why others are naturally different. Then you can adjust the way you deal with different people slightly so that you can get along with them better, get your point across more clearly and become more successful in everything that you do.

Tim Lahaye in his book 'Why you act the way you do' helps to dispel some of these fears and uncertainties we have while dealing with people by helping us understand the personality type of every individual. According to Tim, we are influenced to a large extent by our personality types.

Review columns: Book review- Why you act the way you do

People behave the way they do because…. Their behavior gets them what they want. Nothing more or less. It gets them what they want. This is the reason they are behaving the way they do. And, as a consequence, they won't change their behavior until it stops getting them what they want. Now, here's the interesting part.

Readers discover how temperament affects their work, emotions, spiritual life, and relationships and learn how to make improvements.

Every life is an interesting story, and this story is best written when people go through life's experiences by staying connected to who they truly are. To stay connected to yourself, you need first to start listening from within. This book gives a perspective on why we think, feel and act the way we do, through concepts from neuroscience and psychology. It attempts to answer some of life's key questions, such as— - Why do we all perceive things differently? - Why are we designed to do different things? - Why do we all learn things in different ways? - How are habits formed? - What role do emotions play in our lives? - What makes us happy? And finally, what it means and takes to stay connected to ourselves and others. "Great ideas for a better living, that not only help you to connect with yourself but also to connect with others." Dr. David J Lincoln – Chief advisor and president ANLP India. "The simplicity of ideas and the depth of knowledge make this book a must-read for leaders everywhere." Rajat Garg Master Certified Coach & Director, Global Board of Directors for The ICF (International Coaching Federation) "Vishal brings to life and connects many aspects of living with facts about the brain and how the human mind works. These easy to read and well-structured reflections 'from the heart' show the simple aspects of living life fully." Chitra Ravi Founder & Principle consultant at SeedTLC, Regional Representative for India & Asia on the Board of Trustees of the ITAA (International Transactional Analysis Association)

A child-friendly format for the classic book on how emotions and behaviors interact With wacky characters, varied type faces, and vivid colors, this picture book introduces the vocabulary of values with nonjudgmental language. A wide variety of character traits presents kids with scenarios they can identify with, including peering at bugs with a magnifying glass, making the bed, and finishing a puzzle. Additional examples define words such as "curious," "responsible," "persistent," and "capable." The scenarios let children imagine how they might act in a number of common situations. The Way I Act provides parents with guidance on how to talk to their children about the difference between feelings and actions and the choices that kids can make in their behavior.

Over one million copies sold and nine months on the New York Times bestseller list! For readers of the bestsellers Atomic Habits and Never Split the Difference—this bestselling classic will teach you to hone your intuition to effectively communicate and negotiate...making sure you win every time. These groundbreaking methods will yield remarkable results! YES, YOU CAN WIN! Master negotiator Herb Cohen has been successfully negotiating everything from insurance claims to hostage releases to his own son's hair length and hundreds of other matters for over five decades. Ever since coining the term "win-win" in 1963, he has been teaching people the world over how to get what they want in any situation. In clear, accessible steps, he reveals how anyone can use the three crucial variables of Power, Time, and Information to always reach a win-win negotiation. No matter who you're dealing with, Cohen shows how every encounter is a negotiation that matters. With the tools and skill sets he has devised, honed, and perfected over countless negotiations, the power of getting what you deserve is now a practical necessity you can fully master. "Flawlessly organized." —Kirkus Reviews

The answer to why people feel and act the way they do lies in the profound effect of a child's bonding process with his or her parents. How successfully we form and maintain relationships throughout life is related to those early issues of "attachment." The author has cited four primary bonding styles that explain why people love, feel, and act the way they do. This book is for anyone who desires closeness, especially in the most intimate relationships: marriage, parenting, close friends, and ultimately with God.

Free yourself from emotional turmoileven when that turmoil is caused by others! We have a much greater understanding of human behavior now than we did just a few decades ago. Yet even with this greater understanding of the human mind, why we do what we do can sometimes seem like a mystery. People are often left with unsettling questions about their own (or others') behavior. We ask ourselves, Why did I make a spectacle of myself? Why am I so stressed? Why am I constantly so negative? In his years as a clinician, Dr. Ted George has been struck by how much easier it is for people to say they have a physical illness than it is to admit they feel out of control with an emotion—be it anger, fear, or depression. With a physical issue, you have the source of the problem in concrete terms, such as in a lab report, but with an emotional issue, it can be much harder to define what's gone wrong. Untangling the Mind helps make sense of what's happening—and why. With knowledge of how the brain translates sensory signals into emotions, you will increase your understanding of your own—and others'—behaviors. As you learn about your psychological and neurological makeup, you will begin to see new possibilities for optimism, motivation, and well-being. We can control our behavior and our feelings, no matter how much they may have ruled us in the past, and Dr. George helps us know how. Once you understand the deeply rooted instincts that activate your emotions, you can live more peacefully, behave in ways that are more in keeping with the person you'd like to be, and enjoy your life more fully. And you'll be better able to remain unaffected by the drama of other people's emotional storms.

God. Whether one loves him, hates him, denies or defies him, it is hard to deny the worldwide fascination with God. This book explores why and suggests a personal response to the God Attachment in all of us. Why has the human race, the world over, been so fascinated with . . . some might say obsessed with . . . God? This built-in attachment to God crosses religious, political, ethnic, cultural, and generational barriers. Drs. Clinton and Straub reveal fascinating research about this worldwide phenomenon. From avoidant, anxious, and fearful to secure and personal, the range of responses to our internal attachment to God has a profound influence on the way we do relationships, intimacy, and life choices. With helpful self-assessments, intriguing questions, and surprising revelations, this book moves from worldwide statistics to personal challenge, offering the means to become securely attached to God in a way that can have positive effects on our attitudes, approach to life, and overall life satisfaction.

A superb treatment of the basic human temperaments and how God can use them, now revised with new chapters and questions for group study.

Describes the evolutionary origins of various aspects of human appearance and behavior, including why hiccups occur, why humans laugh, and why they are programmed to eat junk food.

Do you long to understand your mate, date, or your friends better? Once you have the keys to understanding the reasons men and women act the way they do, you will discover new potential in all you relationships. You will appreciate yourself more and criticize others less.
